

One Partner for all your Consultancy and Staff Development Needs...

Who we are...

Concept Training is the UK's leading specialist in practical hands-on training for the special needs sector. Our expertise covers every aspect of working with and helping children who have Autistic Spectrum Disorders, Sensory Impairment, Learning Disabilities or Social, Emotional and Behavioural problems. We were also one of the pioneers in providing independent training in the use of multi-sensory environments. Now, in addition to our successful training programmes, we are able to offer a wide range of support in key areas.

What we can offer...

With the Concept Training Schools Partnership our highly-experienced consultants and trainers can offer you a one-stop shop for all your training and staff development needs. As a Partner, you will have access to our very experienced consultancy team whenever you need them and Partner schools will see the benefit of reduced costs for our complete range of courses and services.

As your partner we will work with you to create a programme of targeted training, consultancy and support that exactly matches your needs.

Our Services Include:

- Auditing any whole school management or development issue
- Providing pre-inspection audit
- Evaluating whole school curriculum or individual subjects
- Auditing CPD needs and creating development plans
- Coaching and mentoring for staff on all levels (Teaching and Management)
- Customised in-house training
- Behaviour management training
- Advice on student education and welfare (including Transition and Child Development and Learning)
- Advice on Statutory and Mandatory Training

"We have commissioned Concept Training to deliver workforce development training to our Education Services Division since 2006 when we centralised our Learning & Development Department.

The service we receive has always been professional and personalised to meet our needs. Concept Training are now one of our preferred training providers to Education Services Division.

Their training sessions are well planned and delivered by experts with in-depth knowledge of the content. Delivery is face to face, using a variety of methods including role play, activities, discussion, Q&A.

At the start of our relationship we purchased their published training programmes delivered by their trainers and have built our relationship since then. In 2008 we were so impressed with the delivery of the content we have commissioned some bespoke training using Concept.

The quality of delivery is excellent and this is reflected in the evaluation remarks. We would commission Concept again and have no hesitation in recommending them as a training provider"

Janet Cowie
Group Learning & Development Manager,
Priory Group

"Concept Training were initially invited to provide a day's training for 25 Third Sector Workforce staff and volunteers in Bournemouth and Poole. This generated overwhelming popularity and subsequently highlighted a demand that will see a further 100 places receive this training with still a waiting list. Concept Training have first hand experience of these behavioural conditions; their approach is practical, positive and informative. The combination of theory, visual and practical exercises ensures the training is tailored to the individual learning needs of the group. I have also found that Concept Training support staff provide a prompt and professional service. I would recommend them to all staff, volunteers and organisations working with children, young people and families"

Clare McCarty-Brooker
Children's Workforce Development
Training Officer, Bournemouth YMCA and
Poole Council for Voluntary Service
